# FARMERS' BULLETINS

## Nos. 351–375,

WITH CONTENTS AND INDEX.

DAIRY DIVISION
NOV 22 '10
B. A. I.–U. S. D. A.

PREPARED UNDER THE SUPERVISION OF

JOSEPH A. ARNOLD,

EDITOR AND CHIEF.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1910.

348338

# CONTENTS.

FARMERS' BULLETIN NO. 351.—THE TUBERCULIN TEST OF CATTLE FOR TUBERCULOSIS. Page.

The diagnosis of tuberculosis ... 3
The origin of the tuberculin test ... 3
The nature and application of tuberculin ... 3
The value and reliability of the tuberculin test ... 4
The harmlessness of tuberculin ... 6
Disposal of and indemnity for reacting animals ... 7
Conclusions regarding the tuberculin test ... 7
Summary of directions for making the tuberculin test ... 8

FARMERS' BULLETIN NO. 352.—THE NEVADA MOUSE PLAGUE OF 1907–8.

Introduction ... 5
The mouse plague in Humboldt Valley ... 5
A plague threatened in Carson Valley ... 10
Previous outbreaks ... 10
Origin and progress of such plagues ... 11
The species responsible for the plague ... 12
Repressive measures ... 13
Natural enemies of field mice ... 21
Conclusions ... 22

FARMERS' BULLETIN NO. 353.—EXPERIMENT STATION WORK, L.

Commercial clover seed ... 5
Dodder in alfalfa seed ... 7
Growing potatoes under straw ... 9
Hens versus incubators ... 10
Preparing fowls for market ... 12
Preservation of eggs ... 14
The mound-building prairie ant ... 15
Effect of glass, metals, etc., on coagulation of milk in cheese making ... 17
The effect of alkali on cement structures ... 20
Silo construction ... 22
A cheap and efficient sterilizer ... 27
A cheap and efficient ice box ... 29
The power laundry for the farm ... 31

FARMERS' BULLETIN NO. 354.—ONION CULTURE.

Introduction ... 5
Areas adapted to onion culture ... 6
Cultural methods ... 8
The production of Bermuda onions ... 30
Green onions for bunching ... 32
Enemies of the onion ... 33
Summary ... 36

FARMERS' BULLETIN NO. 355.—A SUCCESSFUL POULTRY AND DAIRY FARM.

Introduction ... 5
History of the farm and its owner ... 6
Hours of labor ... 8
Drainage ... 9
The cropping system ... 9
The silo and the silage crops ... 11
The handling of manure ... 12
The dairy herd and its management ... 12
Hogs ... 20
Poultry ... 21
Work stock ... 40
Concluding remarks ... 40

| | Page. |
|---|---|
| FARMERS' BULLETIN No. 356.—PEANUTS. | |
| Introduction | 7 |
| Soil and climatic requirements of the peanut | 8 |
| Preparation of the soil | 10 |
| Fertilizers and preparatory crops | 11 |
| The seed and its selection | 13 |
| Time and methods of planting | 15 |
| General cultivation | 17 |
| Harvesting | 19 |
| Picking and cleaning | 23 |
| Varieties of peanuts | 27 |
| The uses of the peanut | 31 |
| The importance of the peanut as a farm crop | 35 |
| Insects injurious to the peanut | 38 |
| Diseases of the peanut | 38 |
| Conclusions | 39 |
| FARMERS' BULLETIN No. 357.—METHODS OF POULTRY MANAGEMENT AT THE MAINE AGRICULTURAL EXPERIMENT STATION. | |
| Introduction | 5 |
| The selection of breeding stock | 5 |
| Raising chickens by natural processes | 6 |
| Raising chickens by artificial processes | 8 |
| Feeding chickens on the range | 17 |
| Feeding cockerels for market | 19 |
| Housing the hens | 20 |
| The yards | 31 |
| Feeding the hens | 31 |
| A poultry-house disinfectant | 34 |
| Trap nests | 36 |
| FARMERS' BULLETIN No. 358.—A PRIMER OF FORESTRY, PART II: PRACTICAL FORESTRY. | |
| Forest management | 3 |
| Work in the woods | 21 |
| The weather and the streams | 29 |
| Forestry abroad and at home | 40 |
| FARMERS' BULLETIN No. 359.—CANNING VEGETABLES IN THE HOME. | |
| Introduction | 5 |
| The science of sterilization | 5 |
| Exclusion of the air | 7 |
| So-called "Preserving Powders" | 8 |
| Kinds of jars | 8 |
| Containers for sterilizing | 10 |
| Selection and preparation of vegetables | 10 |
| Freshness of flavor and color | 15 |
| How to open a jar | 16 |
| Cautions | 16 |
| FARMERS' BULLETIN No. 360.—EXPERIMENT STATION WORK, LI. | |
| Distance between corn hills | 5 |
| The bursting of carnations | 7 |
| Street trees, care and preservation | 9 |
| Spraying for weeds | 15 |
| Market classes and grades of sheep | 17 |
| Vetch hay and vetch silage as feeds for cows | 29 |
| Digestibility of kale | 30 |
| Hulled corn | 31 |
| Methods of mixing fat into dough | 32 |
| FARMERS' BULLETIN No. 361.—MEADOW FESCUE: ITS CULTURE AND USES. | |
| Introduction | 5 |
| Culture of meadow fescue | 8 |
| Enemies of meadow fescue | 14 |
| Meadow fescue in the East | 16 |
| Present importance and future of meadow fescue | 18 |
| Tall fescue | 19 |
| Summary | 22 |

FARMERS' BULLETIN NO. 362.—CONDITIONS AFFECTING THE VALUE OF MARKET HAY. Page.
Factors influencing the hay industry 7
Southern hay trade 9
Tame hay areas of the United States 9
Increase in yield per acre of hay from 1865 to 1905 10
Price of hay for forty years 13
Increasing value of hay lands 13
Fertilizing elements in hay 14
Need of suitable rotations for hay lands 15
Nutritive substances in hay 16
Palatability of hay 17
Digestibility of hay 18
Aroma of hay 19
Grassy and weedy hay 19
Low-grade hay on the market 21
Value of low-grade hay 23
Grades of hay adopted by the National Hay Association 23
Loss caused by stacking hay 25
Value of clover hay 27
Conclusions 27

FARMERS' BULLETIN NO. 363.—THE USE OF MILK AS FOOD.
Introduction 7
Sources and kinds of milk 8
Composition and characteristics of milk 9
Preserving milk 15
Condensed milk and milk powder 18
Graded and certified milk 19
Care of milk in the home 20
Digestibility of milk 20
Relative value of cooked and raw milk 23
Milk for infants—Modified milk—Homogenized milk 25
Special infant foods 26
Nutritive value of milk compared with other foods 27
Cost of nutrients in whole milk and skim milk 33
The use of milk in cooking 35
Milk products 36
Summary 42

FARMERS' BULLETIN NO. 364.—A PROFITABLE COTTON FARM.
Introduction 7
Description of the cotton farm 7
Management of the farm 8
Plowing 9
Surface drainage 10
Methods of growing the crops 10
Live stock 17
Equipment of the farm 18
Cost and value of crops produced in 1908 18
Use of fertilizers 19
Recommendations regarding winter cover crops 21
Summary 21
Some features of the system of management described applicable to many farms 23

FARMERS' BULLETIN NO. 365.—FARM MANAGEMENT IN NORTHERN POTATO-GROWING SECTIONS.
Introduction 5
Methods employed in growing potatoes in Aroostook County, Maine 7
Methods employed in growing potatoes in other sections 16
Cost of producing potatoes 20
Problems confronting Aroostook County growers 22
Seed selection 26
Conclusions 28

FARMERS' BULLETIN NO. 366.—EXPERIMENT STATION WORK, LII.
Treatment of muck soils 5
Manures for timothy hay 6
Ten generations of corn breeding 10
Yellow berry in hard winter wheats 13

FARMERS' BULLETIN No. 366.—EXPERIMENT STATION WORK, LII—Cont'd. Page.
Weed seeds in feeding stuffs ... 16
Hook-worm disease of cattle ... 17
Effect of machine milking of individual cows ... 19
Milk supply of cities ... 20
The crow as a menace to poultry raising ... 28
Hours of labor, wages, and cost of board on Minnesota farms ... 30

FARMERS' BULLETIN No. 367.—LIGHTNING AND LIGHTNING CONDUCTORS.
Introduction ... 7
Origin of electricity ... 8
Conductors and nonconductors ... 8
Positive and negative electrification ... 8
Electricity in thunderstorms ... 11
Lightning rods for farm buildings ... 14

FARMERS' BULLETIN No. 368.—THE ERADICATION OF BINDWEED, OR WILD MORNING-GLORY.
Introduction ... 5
Injurious effects of bindweed ... 5
Distribution ... 7
Description ... 8
Methods of eradication ... 10
Summary ... 18

FARMERS' BULLETIN No. 369.—HOW TO DESTROY RATS.
Introduction ... 5
Means of repressing rats ... 6
Summary of recommendations ... 19

FARMERS' BULLETIN No. 370.—REPLANNING A FARM FOR PROFIT.
Introduction ... 5
Difficulty of taking up a new line of farming ... 5
How shall the change be made? ... 5
Objections to giving advice on the management of entire farms ... 6
Farm plans must be based on average conditions ... 7
How farms are replanned by the office of farm management ... 7
Replanning a farm in central Illinois ... 8
Summary of returns from different types of farming ... 33
Plans given not model plans ... 34
The problem of replanning a farm ... 35
Why low returns are realized from some farms ... 35
Summary ... 36

FARMERS' BULLETIN No. 371.—DRAINAGE OF IRRIGATED LANDS.
Introduction ... 5
Cache County [Utah] investigations ... 7
Boxelder County [Utah] investigations ... 11
Investigations in Weber and Davis counties [Utah] ... 18
Emery County [Utah] investigations ... 25
Sevier County [Utah] investigations ... 32
Washington County [Utah] experiment ... 35
Drainage of irrigated lands in other States ... 44
Principles and practice ... 45
Summary ... 51

FARMERS' BULLETIN No. 372.—SOY BEANS.
Introduction ... 5
Climatic and soil requirements of soy beans ... 6
Varieties of soy beans ... 7
The culture and planting of soy beans ... 11
The inoculation of soy beans ... 12
Soy beans for hay ... 14
Soy beans for pasturage ... 15
Soy beans in mixtures ... 16
Soy beans for ensilage ... 18
Soy beans for grain ... 18
Soy beans in rotations ... 20
Feeding value of soy beans ... 20
Storing soy-bean seed ... 22
Comparison of soy-bean grain and cotton-seed meal ... 23
Comparison of soy beans and cowpeas ... 24
Summary ... 25

FARMERS' BULLETIN NO. 373.—IRRIGATION OF ALFALFA. Page.

Introduction ..... 7
Irrigable lands adapted to alfalfa ..... 8
The removal of native vegetation ..... 10
Preparatory crop ..... 12
Methods of irrigating alfalfa ..... 13
Farm ditches ..... 31
The subirrigation of alfalfa fields ..... 35
Amount of water required ..... 38
The proper time to irrigate alfalfa ..... 40
Winter irrigation of alfalfa ..... 41
Winterkilling of alfalfa ..... 41
Seeding alfalfa on land to be irrigated ..... 43
Rise of ground water and its effects on alfalfa ..... 44
The injurious effect of silt on alfalfa and the benefits to be derived from disking ..... 46
Pasturing irrigated alfalfa ..... 46
Production of alfalfa seed under irrigation ..... 47
Profits to the irrigator ..... 47

FARMERS' BULLETIN NO. 374.—EXPERIMENT STATION WORK, LIII.

Inoculation and lime for alfalfa ..... 5
Citrus culture in southern Texas ..... 7
Pruning rotundifolia grapes ..... 11
Nutritive value of native hays in the arid regions ..... 12
Bermuda grass ..... 16
Short versus long feeding of beef cattle ..... 17
Contagious abortion of cattle ..... 19
Preventing losses at lambing time ..... 22
Winter lambs for the Pacific coast market ..... 25
Feeding work horses ..... 25
Colony houses for poultry ..... 26
Food of the crow blackbird ..... 30
Flour for making baking-powder biscuits ..... 31

FARMERS' BULLETIN NO. 375.—CARE OF FOOD IN THE HOME.

Introduction ..... 7
Yeasts, molds, and bacteria, and the spoiling of food ..... 7
Flies and food ..... 14
Dust in its relation to food ..... 17
Pet animals in the kitchen ..... 18
The food supply ..... 19
The storage of food ..... 26
The keeping of vegetables, fruits, and meats ..... 33
Storage of groceries, meats, cooked food, and canned goods ..... 34
Care and utilization of fats ..... 37
Handling of food and utensils in the kitchen ..... 38
Importance of good house plans and home conveniences ..... 44
Cleanliness in public eating places ..... 45
